### Definitions

1. Software refers to Novo Tech Software’s computer program, in each case, supplied by Novo Tech Software herewith, and corresponding documentation, associated media, and online or electronic documentation.
2. Trial Version means a free version of the Software for evaluation purposes only, so identified, to be used in one computer only and for a period of 14 days.
3. Registered Version means a version that has been purchased from Novo Tech Software.

### For Trial Version

The trial version may not be distributed inside of any other Software package without written permission of Novo Tech Software. You may use the accompanying product free of charge for a period of 14 days for the sole purpose of evaluating the product. If, after this period, you wish to continue using this product, you are required to purchase it. In other case, you are required to remove this product, in its entirety, from all computers on which it is installed.

### For Registered Version

The Registered Version is a version of the Software for which a license is purchased from Novo Tech Software. The Registered Version allows the registered user to conduct and publish its work according to the license agreement, but nor Novo Tech Software nor any member of the company can be held liable for the content or accuracy of the publication. A Registered Version may be purchased as Perpetual (no time limit for using the Software) or as Lease (permission to use the Software for a limited time only). Once the payment is completed and a license is issued for the Software, the Software cannot be returned (i.e. no refund).

## Maintenance Plan (applies to Perpetual License only)

When you purchase a Perpetual license, an annual subscription to Maintenance Plan (upgrades and support) will be automatically added to your order. This is free for the first year, but you will be automatically charged for annual renewals (unless you cancel your subscription from My Account section of our website), based on the payment information you provided during your initial purchase. This allows you to upgrade to latest version, transfer your license to a new computer, and to benefit from our technical support when you need our help.

If the renewal of user's subscription to Maintenance Plan fails on its due date, the user can still continue using the software, however the user will no longer be entitled to upgrade to higher versions, to transfer the license, or to receive our support services. In this case, if user decides to subscribe to Maintenance Plan, its cost will be calculated based on the ‘annual cost of Maintenance Plan’ x ‘years after expiry of Maintenance Plan’ with a cap of 50% of current Software price.

### Terms

This license is effective until terminated. You may terminate it by destroying the program, the documentation and copies thereof. This license will also terminate if you fail to comply with any terms or conditions of this agreement. You agree upon such termination to destroy all copies of the program and of the documentation.
